

STYLE AND FUNCTION

The new steel canister set

Quickly and easily mounted using 4 screws, the additional canister is a visual highlight for every motorcycle. Thanks to the clever hole pattern, the sturdy base holder can be firmly mounted in 3 positions on an existing C-bow

holder. The high-quality coated steel canister is authentically and stylishly fixed to the base holder by means of a tensioning strap. The volume of the canister is 5 litres. Incl. mounting material and tensioning strap.

Supplied without model-specific holder. A C-Bow base holder is required for installation.

Note: Do not fill with flammable liquids!
